1. PURPOSE

The purpose of this Asset Management Policy is to establish a formal framework for identification, ownership, classification, inventory maintenance, protection, monitoring, review and lifecycle management of information and technology assets used by the Odisha e-Registration System.

The policy specifically establishes requirements for assets supporting **Aadhaar Authentication / e-KYC**, including authentication endpoints, biometric devices, application components, servers, databases, network infrastructure and other supporting technology assets.

2. SCOPE

This policy applies to all information and technology assets used for providing services through the Odisha e-Registration System and, in particular, assets involved in or supporting Aadhaar Authentication / e-KYC.

The scope includes:

- Business applications
- Aadhaar authentication interfaces and services
- Application servers
- Database servers and databases
- Operating systems
- Registration-office workstations/endpoints
- Registered biometric devices
- Network switches, routers and firewalls
- Printers and scanners
- Software and system licences

3. OBJECTIVES

The objectives of asset management are to:

1. Ensure that all assets are uniquely identified.
2. Maintain a complete and current asset inventory.
3. Assign clear ownership and custodianship to each asset.
4. Classify assets according to their criticality and sensitivity.
5. Identify Aadhaar Authentication assets separately within the asset inventory.
6. Ensure appropriate security controls based on asset criticality.
7. Maintain asset information throughout the asset lifecycle.
8. Periodically verify and reconcile the asset inventory.
9. Ensure timely updating of asset records when assets are deployed, transferred, modified or retired.

4. ASSET OWNERSHIP

Every asset supporting the e-Registration System shall have a clearly identified **Business Owner** and, where applicable, a **Technical Custodian**.

4.1 Business Owner

The Business Owner is responsible for:

- Determining the business importance of the asset.
- Confirming the required level of protection.
- Approving access to information or services associated with the asset.
- Confirming asset criticality/classification.
- Participating in periodic asset review.

4.2 Technical Custodian

The Technical Custodian is responsible for:

- Deployment and technical maintenance.
- Configuration and security hardening.
- Patch and vulnerability management.
- Monitoring and operational support.
- Updating technical information in the asset inventory.
- Reporting asset incidents and changes.

5. OWNERSHIP OF AADHAAR AUTHENTICATION ASSETS

All assets that directly or indirectly support Aadhaar Authentication / e-KYC shall be identified in the **Aadhaar Authentication Asset Inventory** and shall have explicit ownership.

The following ownership structure shall apply:

Asset Category	Business Owner	Technical Custodian
Aadhaar Authentication Service	Inspector General of Registration / Authorised Project Authority	Application Team
e-Registration Application	Inspector General of Registration / Authorised Project Authority	Application Team
Aadhaar Authentication Integration/API	Project/Application Owner	Application Integration Team
Aadhaar Authentication Database/related application database	Project/Application Owner	Database Team
Authentication Servers	Project/Application Owner	IT Infrastructure Team
Authentication Endpoints	Concerned Registration Office	IT Infrastructure / Support Team

Asset Category	Business Owner	Technical Custodian
Biometric Devices	Concerned Registration Office / Authorised Registration Officer	IT Infrastructure / Support Team
Network Devices supporting authentication	Project/Application Owner	Network Team
Firewall/Security Devices	Project/Application Owner	Network/Security Team
Operating Systems	Respective Application/Infrastructure Owner	System Administration Team
Backup Infrastructure	Project/Application Owner	Backup/Infrastructure Team

Where operational responsibility differs by deployment location, the relevant office/department shall be recorded in the inventory as the local asset custodian.

6. ASSET CLASSIFICATION

Assets shall be classified according to **criticality, business impact and security sensitivity**.

The following classification shall be used.

6.1 Critical

Assets whose failure, compromise or unavailability may:

- Interrupt Aadhaar Authentication/e-KYC services.
- Affect a major portion of e-Registration operations.
- Cause significant security or regulatory impact.
- Affect authentication transactions or supporting services.

Examples:

- Aadhaar Authentication Service/API
- Production application servers supporting authentication
- Authentication database
- Core security infrastructure
- Critical network/security devices

6.2 High

Assets that support critical business services but whose failure may have a limited or recoverable impact.

Examples:

- Registration-office biometric-enabled workstations
- Registered biometric devices
- Supporting network switches
- Application support servers
- Backup systems

6.3 Medium

Assets that support normal operational activities and whose temporary failure does not cause significant disruption to Aadhaar Authentication.

Examples:

- Printers
- Scanners
- Administrative workstations
- Supporting monitoring systems

6.4 Low

Assets having limited business impact and not directly supporting critical authentication services.

Examples may include:

- Non-production test assets
- General administrative peripherals
- Other auxiliary IT equipment

7. SECURITY SENSITIVITY CLASSIFICATION

Where an asset processes or provides access to sensitive information, information associated with the asset shall also be classified appropriately.

The following categories may be used:

Classification	Description
Restricted	Aadhaar-related or highly sensitive information and supporting systems
Confidential	Project, application, security and operational information
Internal	Internal operational information
Public	Information approved for public disclosure

Aadhaar-related information shall be treated as **Restricted/Confidential** according to the applicable information security and UIDAI requirements.

8. AADHAAR AUTHENTICATION ASSET IDENTIFICATION

Any asset involved in Aadhaar Authentication shall be identified using an appropriate asset category and unique Asset ID.

Recommended prefixes are:

Prefix	Asset Category
APP	Application
API	Authentication/API Service
SRV	Server
DB	Database
EP	Endpoint
BIO	Biometric Device

Prefix	Asset Category
NW	Network Device
SEC	Security Device
STG	Storage
BAK	Backup
SW	Software
CERT	Digital Certificate
PER	Peripheral

Example:

EP-SRO-ANG-001 – Aadhaar Authentication Endpoint

BIO-SRO-ANG-001 – Registered Biometric Device

API-AUTH-001 – Aadhaar Authentication API

9. AADHAAR AUTHENTICATION ASSET INVENTORY

A dedicated **Aadhaar Authentication Asset Inventory** shall be maintained as part of the overall Asset Register.

The inventory shall identify all assets used directly or indirectly for Aadhaar Authentication/e-KYC.

Minimum fields

Asset ID	Asset Category	Asset Type	District/City	Office	Make/Model	Asset Code	Serial No.	Aadhaar Authentication Relevant	Criticality	Business Owner	Technical Custodian	Status
----------	----------------	------------	---------------	--------	------------	------------	------------	---------------------------------	-------------	----------------	---------------------	--------

The existing office asset records include fields such as **City Name, Office Name, Item Name, Asset Code and Serial No.**, which can form the base dataset for this inventory.

10. REGISTRATION-OFFICE ASSET MANAGEMENT

Assets deployed at Sub-Registrar Offices, District Registrar Offices and other authorised registration locations shall be recorded against the respective office.

The office shall act as the **local business custodian**, while technical maintenance shall remain with the designated IT Infrastructure/Support function.

Assets deployed at registration offices shall include, where applicable:

- Authentication workstation
- Biometric device
- Network switch
- Printer
- Scanner
- Camera
- Other approved peripherals

Each asset shall be individually identifiable and traceable.

11. ASSET LIFECYCLE MANAGEMENT

Asset management shall cover the complete lifecycle:

Procurement → Receipt → Registration → Labelling → Deployment → Operation → Maintenance → Transfer → Upgrade → Review → Decommissioning → Disposal

12.1 New Asset

Every new asset shall be registered before or at the time of deployment.

12.2 Transfer

Any transfer between offices or locations shall be recorded in the Asset Register.

12.3 Modification/Upgrade

Major configuration changes, hardware upgrades or operating-system changes shall be recorded where they affect the asset identity, security or operational status.

12.4 Decommissioning

Decommissioned assets shall be marked as retired and removed from active inventory.

12.5 Disposal

Disposal shall follow the approved IT asset disposal and information-security procedure.

12. ASSET SECURITY REQUIREMENTS

Security controls shall be applied according to asset criticality and classification.

Critical and High assets shall receive appropriate controls including:

- Access control
- Endpoint protection
- Patch management
- Vulnerability management
- Secure configuration
- Logging and monitoring
- Backup
- Incident management
- Change management
- Periodic security review

13. PERIODIC ASSET INVENTORY REVIEW

The Asset Inventory shall be reviewed at least **quarterly** and additionally whenever significant changes occur.

The review shall verify:

- Asset existence
- Asset location
- Asset owner
- Criticality
- Operational status
- Serial number/asset code
- Aadhaar Authentication relevance

Any discrepancy shall be investigated and corrected.

14. RESPONSIBILITIES

Role	Responsibility
Project Owner	Overall business ownership and governance
Information Security Officer/CISO	Security classification, policy oversight and compliance review
IT Infrastructure Manager	Technical asset management
Application Manager	Application and authentication asset ownership
Database Administrator	Database asset maintenance
Network Team	Network/security device inventory
Registration Office	Local custody and physical verification
IT Support	Endpoint/peripheral maintenance
Procurement	Procurement and contractual asset records
Vendor	Maintenance/support as applicable

15. AUDIT AND COMPLIANCE

The Asset Inventory and supporting asset records shall be made available for:

- Internal audits
- Information security audits
- UIDAI/Aadhaar compliance audits
- CERT-In empanelled auditor assessments
- Management reviews
- Security assessments

Evidence of periodic inventory review shall be retained.

16. RECORDS TO BE MAINTAINED

The following records shall be maintained:

1. Master Asset Inventory
2. Aadhaar Authentication Asset Inventory
3. Asset Allocation/Transfer Records
4. Asset Verification Records
5. Asset Classification Records
6. Asset Ownership/Custodian Records
7. Asset Disposal Records
8. Asset Inventory Review Log
9. Asset Change Records
10. Supporting procurement/warranty records

17. CONTROLLED REVIEW

This policy shall be reviewed:

- At least annually;
- Following significant changes to the e-Registration System;
- Following major changes to Aadhaar Authentication infrastructure;
- Following significant audit observations;
- Following major security incidents, where relevant.

STQC CERTIFICATE FOR BIOMETRIC DEVICE USED FOR AADHAAR AUTHENTICATION

BIOMETRIC DEVICE CERTIFICATION FOR UID APPLICATIONS

(A Joint Scheme of STQC Directorate AND UIDAI)

CERTIFICATE OF APPROVAL FOR AUTHENTICATION DEVICES

Approval Number: **UIDAI/BDCS/AUTH/2019/FPS-D/2**

It is hereby certified that the following Biometric Device

Device	Single Finger Print Scanner
Scope	
Model No.	Hamster Pro 20 / HU20-AP
Sensor	U20-AP
Extractor Reference	SecuGen ANSI INSI INCITS 378 Template Generator, v 3.5
Manufacturer	SecuGen Corporation 2065 Martin Avenue, Suite 108 Santa Clara, CA 95050, USA
Supplier	SecuGen India Private Limited Unit No. 605 to 608, 'C' Wing, 6th Floor, Solaris 1, Saki Vihar Road, Andheri (East), Mumbai - 400 072.

Fulfills the requirements of Biometric Device(s) certification scheme.

This Certificate is valid upto: **18/03/2027** Date of Issue: **19/03/2022**

Note : Requesting entity/user agency is suggested to verify the compliance as per Office Memorandum & Order (Public Procurement No. 2) issued by Public Procurement Division, Ministry of Finance vide F.No. 6/18/2019-PPD, dated 23/07/2020, if applicable.

Visit www.stqc.gov.in for details of the scheme.

TERMS AND CONDITIONS

PO No. 048 Dated 11.07.2022

1. PURCHASER

Odisha Computer Application Centre on behalf of the Revenue and Disaster Management Department, Government of Odisha.

2. STANDARDS

Procurement of IT Hardware & peripherals for e- Registration Project of Revenue and Disaster Management Department, Government of Odisha.

Tender Ref. No.: OCAC-SEGP-INFRA-0001-2022-22022

3. Scope of Work (Tender clause 10 & sub-clauses of 10)

- 3.1 Supply and Delivery of IT Hardware & peripherals: as per the make and model as well as quantity mentioned in the PO. The Specification hardware and peripherals should be as per the Tender Clause no. 11.5 (As per Annexure-I).
- 3.2 The selected bidder M/s Krystal Integrated Services Pvt. Ltd. is expected to carry out all activities covering Supply including delivery, installation of software and documentation, Testing, Quality Inspection in coordination with OCAC and other stakeholders of the project. Complete Lot (100% of total BoM) will be delivered within 16 weeks from the date of issuance of the work order.
- 3.3 Buy back items are available at SDC, and 185 SR/DSR location. M/s Krystal Integrated Services Pvt. Ltd has to collect item in as-is-where-is condition. No additional expenses will be paid for removal of items.
- 3.4 Hardware items under buyback will be sold by the vendor on "as is where is" basis and purchase price of these items once accepted by the OCAC cannot be withdrawn by the vendor.
- 3.5 It would be vendor's responsibility to collect the left-over buyback items, if any, from respective Sub Registrar Office/OSDC locations.
- 3.6 It should be the M/s Krystal Integrated Services Pvt. Ltd.'s responsibility to collect the buyback items, from SDC as well as respective SR/DSR offices location and OCAC/IGR not provide any transportation expenses towards this.
- 3.7 Other Terms and conditions as per Tender clause 10 & sub-clauses of 10.

4. Transit Insurance (Tender clause 10.13)

- 4.1. The IT Hardware and peripherals to be supplied under the Contract shall be fully insured against any loss during transit from OEM site to Nodal office sat district level. The insurance charges will be borne by the supplier and OCAC will not pay such charges.
- 4.2. The M/s Krystal Integrated Services Pvt. Ltd. has to submit the certificate of insurance (from third party insurance agency/ self) covering all the risks mentioned above.

TERMS AND CONDITIONS

PO No. 048 Dated 11.07.2022

5. Performance Bank Guarantee (PBG)

- 5.1. OCAC will require the selected bidder to provide a Performance Bank Guarantee (PBG), within 15 days from the issuance of the work order, for a value amounting to ₹ 58,11,043/- valid for 63 months.
- 5.2. OCAC shall invoke the performance Bank Guarantee in case the selected Vendor fails to discharge their contractual obligations during the period or OCAC incurs any loss due to Vendor's negligence in carrying out the project implementation as per the agreed terms & conditions.
- 5.3. Performance Bank Guarantee shall be refunded within three months of the successful completion of the contract period i.e., expiry of "Warranty and Support Services" of all the IT Hardware and peripherals.

6. Timeline

Complete Lot (100% of total BoM) will be delivered within 16 weeks from the date of issuance of the work order.

7. Penalty/ Liquidated Damages (LD)
